

Spring Valley Lake Association Board Action/Information—Open Session

BAI 19-11-01

Subject:	Equestrian Center 1978 Massey Ferguson 30B Tractor	
From:	Nicolas Gonzalez- Facility Manager	
Date Prepared:	November 13,2019	
Meeting Date:	November 13,2019	
History:	This tractor is 41 years old and it's kept at the Equestrian center. At this time the parts are getting harder to locate because of age. The only one usage for this piece of equipment is for weed abatement. The tractor cannot be used to groom the arenas because it's difficult to steer and control in tight corners. The state has given a mandatory order that all 2010 and older, 25hp and above tractors must not be used do to emissions.	
Staff Recommendation:	We recommend Apex Rentals From Hesperia CA	
Support for Recommendation:	We recommend Apex Rentals for the reasoning they were the only company who were willing to give SVLA additional discounts, offered to give a demo and was the lowest bid.	
Committee Recommendation:	N/A	
Financial Impact/ Budget Source:	The current tractor has a life expectancy of 0 years. The reserve estimated cost is \$47,000.00 New 2019 Tractor \$55,139.99	
Desired Board Action:		
Person Submitting: Nicolas Gonzalez		General Manager:
