

Spring Valley Lake Association

Operations Report

August 28, 2012

Page 1 of 1

Facilities, Maintenance and Grounds:

Weed abatement at EQ trails has been on-going this month.

Treated Meadowlark park for bees.

Repaired a electrical short at Archway caused by the damage from a prior hit, the short was in the homerun to the main over 100' away, also repaired sub-panel.

Repaired south entrance doors at CB and restroom damage from break-in.

Cleared out overgrown vegetation at Parkway v-ditch.

Replaced (2) ADA parking signs at CB parking and AO parking due to damage.

Continued daily landscaping duties are being performed throughout out association.

Lake and Fishing Areas:

Reset damaged or loose perimeter and centerline buoys.

Lifted existing cover over PSD patrol boat.

Dragged and weeded beach areas.

We have continued treatments of the swim area scheduled for 4:30pm with the next 2 for 8/29/12 and 9/19/12

Weekly testing of our swim area water by Clinical laboratory of San Bernardino with the latest August results showing as follows:

Total Coliform 13MPN/100mL

Fecal Coliform 4MPN/100mL

The health department considers 200MPN/100mL and above unsafe.

New stone borders and rock landscape to replace the aging wood borders at all fishing areas well pump electrical panels.

Monthly lake data pulled and compiled. We visited Silver lakes lake committee and maintenance along with our lake committee to compare notes and thoughts.

Redesigned our existing PSD PWC trailer to hold both of our PWC's.
